

Material Safety Data Sheet

1. Product and Company Identification

Product name	Foam Core Doors
MSDS Number	0006
Synonyms	FC-13/8, FC-13/4, Encore
Product use	Various Construction Uses
Manufacturer	Doormerica Products (ABS – Manufacturing) Sacramento, CA Division 8360 Elder Creek Road. Sacramento, CA 95828-1705 Stockton, CA Division 1488 Tillie Lewis Drive Stockton, CA 95206 Atlanta, GA Division 4475 South Fulton Parkway – Bldg 6 – Suite 200 Union City, GA 30349
Print date	May 1, 2010
Telephone	Emergency Phone (916) 503-4100 Sacramento, CA (916) 503-4100 Stockton, CA (209) 941-8852 Atlanta, GA (404) 935-4060

2. Hazards Identification

Form	Doors are comprised mostly of Wood, MDF, Particleboard, Paper, Plastic Laminate and resin based adhesives.
Odor	Color and Odor are dependent on wood species used, but very slight and aromatic.
OSHA/HCS status	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
Emergency overview	If this product is cut, sanded or manipulated so that dust or airborne particles may be produced it may become a health hazard.
<u>Potential acute health effects</u>	
Inhalation	Can cause irritation of the respiratory system.
Ingestion	Not likely, can be harmful or fatal.
Skin	Handling doors without gloves may lead to wood splinters and or cuts. Some woods are known to cause allergic skin reactions.

Eyes May cause eye irritation or damage.

Potential chronic health effects

Chronic effects Inhalation exposure may cause permanent damage to the lungs. Exposure to wood dust may cause respiratory and skin sensitization.

Carcinogenicity Suspected Cancer Agents of some components used in this product. (Melamine, Wood dust, Beech, Oak, Birch, Mahogany, Teak, Walnut, Western Red Cedar)

Mutagenicity No known significant effects or critical hazards.

Teratogenicity No known significant effects or critical hazards.

Developmental effects No known significant effects or critical hazards.

Fertility effects No known significant effects or critical hazards.

Target organs Chronic = Respiratory System, skin. Acute = Skin (cuts, splinters), Respiratory System, eyes (dust exposure).

Over-exposure signs/symptoms

Inhalation Nasal dryness, coughing, sneezing, sinusitis, headache, allergic reaction, wheezing

Ingestion Not likely, could cause nausea, vomiting, severe abdominal distress.

Skin Splinters can cause infection or allergic skin reaction. Redness, itching, welts.

Eyes Irritation or damage from dust or splinters.

Medical conditions aggravated by over-exposure Asthma

See section 11 for more detailed information on health effects and symptoms.

3. Composition/Information on Ingredients

Chemical Name	CAS #	Wt %
Wood, Hardwood and Softwood Mixture	Not Applicable	15.0 – 18.0
Paper, MDF, Wood, Melamine Mixture	Proprietary Mixture	45.0 – 55.0
PVA Resin, Urea, Adhesive Mixture	Proprietary Mixture	5.0 – 12.0
Paraffin Wax Emulsion	Proprietary Mixture	1.0
Foam Mixture of Foam Core	Proprietary Mixture	35.0 – 45.0

4. First Aid Measures

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Skin contact	Flush contaminated skin with plenty of water. Get medical attention if symptoms occur.
Inhalation	Move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Get medical attention if symptoms occur.
Ingestion	Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.
Protection of first aid personnel	No action shall be taken involving any personal risk or without suitable training.

See section 11 for more detailed information on health effects and symptoms.

5. Fire-Fighting Measures

Flash Point	Not Determined
<u>Extinguishing media</u>	
Suitable	Water Spray, Foam, Halon, Carbon Dioxide, Dry Chemical, Any ABC Class.
Not suitable	None known.
Special exposure hazards	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Explosion sensitivity	Not sensitive to static discharge. If dusty conditions develop while being sanded or manipulated, a sever hazard of an air / dust explosion may occur.
Special protective equipment for fire-fighters	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental Release Measures

Personal precautions	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Due to the form of this product, there is no hazrad of release.
Environmental precautions	Waste doors may be disposed of as non-hazardous materials. Dispose of in direct accordance with U.S. Federal, State and local regulations.

7. Handling and Storage

Handling	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not ingest.
-----------------	---

Avoid contact with eyes, skin and clothing. Avoid breathing dust generated from this product. Use in well ventilated area or where dust collection system available.

Storage

Keep away from heat, sparks and any other sources of ignition. Do not cut or sand doors without adequate dust collection or in unventilated areas. Store only in cool, dry, ventilated area. Appropriate extinguishing equipment must be available in storage area. I.e. sprinkler system, fire extinguishers.

8. Exposure Controls / Personal Protection

Consult local authorities for acceptable exposure limits.

Recommended monitoring procedures

If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

Engineering measures

Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

Hygiene measures

Wash hands, forearms and face thoroughly after handling this product, before eating, smoking and using the lavatory and at the end of the working period.

Respiratory

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Hands

Leather or other type glove that will protect against cuts and splinters when handling this product.

Eyes

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to dusts.

Skin

Personal protective equipment for the body should be selected based on the task being performed and the risks involved.

Environmental exposure controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

9. Physical and Chemical Properties

Form	Solid pressed wood
Flash point	Not applicable
Auto-ignition temperature	400 – 500 degrees F.
Flammable limits	
Lower:	Not applicable
Upper:	Not applicable

Color	Various
Odor	Slight aromatic
pH	Not applicable
Boiling point	Not applicable
Freezing Point	Not applicable
Relative density	Not applicable
Vapor pressure	Not applicable
Odor threshold	Not applicable
Viscosity	Not applicable
Solubility	Not applicable
Partition coefficient: n-octanol/water	Not applicable
Evaporation rate	Not applicable
Vapor density	Not applicable

10. Stability and Reactivity

Stability	The product is stable.
Conditions to avoid	Strong oxidizing agents
Materials to avoid	Strong oxidizing agents
Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. Toxicological Information

As manufactured this product poses minimal health hazard. When cut, sanded or manipulated to form dust, inhalation and eye contact may cause irritation. Some types of wood used in this product can cause skin respiratory reactions. Formaldehyde exposure may cause skin and or respiratory sensitization. Suspected Cancer Agents of some components used in this product. (Melamine, Wood dust, Beech, Oak, Birch, Mahogany, Teak, Walnut, Western Red Cedar)

12. Ecological Information

Environmental effects	No known significant effects or critical hazards.
Other adverse effects	No known significant effects or critical hazards.

13. Disposal Considerations

Waste disposal	Waste doors may be disposed of as non-hazardous materials. Dispose of in direct accordance with U.S. Federal, State and local regulations.
-----------------------	--

14. Transport Information

The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.

International transport regulations

Regulatory information	UN/NA number	Proper shipping name	Classes/*PG	Reportable Quantity (RQ)
USDT 49 CFR		Non-regulated		
TDG		Non-regulated		

IMO/IMDG Non-regulated

IATA (Cargo) Non-regulated

15. Regulatory Information

US regulations

HCS Classification Not regulated

U.S. Federal regulations **SARA 311/312 Classification** Acute – No, Chronic – No, Fire – Yes, Reactive – No, Sudden Release - No

SARA 302 Extremely Hazardous Substances None required.

State regulations **California Prop. 65:** None required.

Canada

WHMIS (Canada) Not controlled under WHMIS (Canada).

Canadian lists **Canadian NPRI:** None required.

International regulations

Europe inventory All components are listed or exempted.
Australia inventory (AICS) All components are listed or exempted.
China inventory (IECSC) Not determined.
Japan inventory (ENCS) Not determined.
Japan inventory (ISHL) Not determined.
Korea inventory (KECI) Not determined.
New Zealand Inventory of Chemicals (NZIoC) Not determined.
Philippines inventory (PICCS) Not determined.
Canada inventory All components are listed or exempted.
United States inventory (TSCA 8b) All components are listed or exempted.

16. Other Information

Hazardous Material Information System III (U.S.A.) Health : 1
Flammability: 1
Physical hazards : 0
Chronic : 0
